NEWEST WATER SHEDDING DECK SYSTEM ON THE MARKET

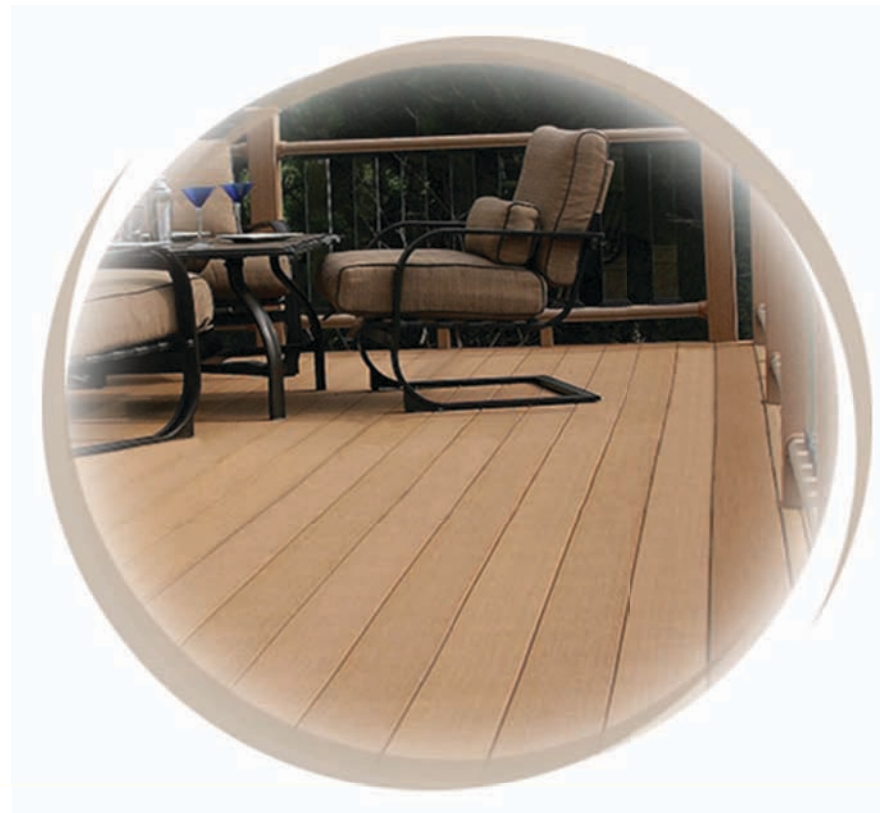

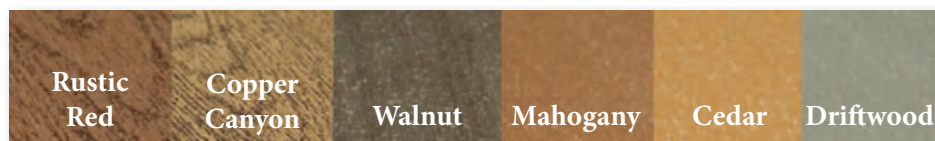

DuxxBak Decking...

Water Shedding Deck System

DuxxBak offers more than just beauty. DuxxBak is the only complete non-vinyl water shedding deck system on the market. DuxxBak's patented formulation is in part what makes it a step above the competition. With a combination of Biodac®, rice hulls, high density polyethylene resins, and other high quality ingredients, DuxxBak has high fade resistance and very minimal water absorption in comparison to its wood composite competitors. Create a dream outdoor living space that you can enjoy in rain or sunshine. DuxxBak decking will create the ideal storage space or additional outdoor living space because DuxxBak is engineered to shed water from the deck top while keeping the under space dry.

Available in 6 naturally beautiful colors:

Available in 12', 16', and 20' lengths along with specially designed end caps to help water drain from the deck top!
