

Ipe and Mas-saranduba are exotic hardwoods from Brazil and the rain forest.

They are very similar to mahogany and teak and make gorgeous decks.

Note the beautiful contrast between the rich Ipe wood and white fascia.

Ipe and Massaranduba are rich and dark and perfectly suited for decks and porches

Pergola rafters

We recommend wrapping all headers in 5/8" Royal Wood white vinyl and using 1"x6" or 1"x8" Royal Wood white vinyl for the pergola rafters to insure you never have to paint it.
